CAREER OBJECTIVE

Aspiring Product Manager / Business Analyst leveraging a solid backend foundation and client-facing experience to build impactful, user-focused digital products.

Actively learning Power BI and Figma to enhance product and analytical capabilities.

PROFILE SUMMARY

Result-oriented Software Engineer with hands-on backend experience (Spring Boot, PostgreSQL) and growing interest in Product Strategy, User Experience, and Business Analytics. Proven ability to bridge technical teams and client needs — from feature development to demo delivery. Now transitioning toward Product Management / Business Analysis, leveraging a strong engineering foundation and a sharp communication edge.

EXPERIENCE

Software Engineer Intern — Kaidoko Automation Solutions

Sep 2025 – Present | Delhi, India

- Conducted client demo presentations and created product demo videos to communicate MVP functionality effectively
- Collaborating in a 5-member cross-functional team including the co-founder, senior developers, and interns
- Developed backend features and Streamlit-based dashboards for generating analytics reports on interview feedback
- Prototype approved by client; currently scaling toward full deployment

Skills: Requirement Gathering, Product Demonstration, Client Communication, Streamlit, Python, Feature Documentation

Backend Developer Intern — Engineers India Limited (EIL)

July 2025 – Sept 2025 | Delhi, India

- Contributed to the Leave Management Portal for EIL employees using Spring Boot and PostgreSQL
- Focused on optimizing APIs for employee data flow and role-based access
- Collaborated with internal IT team to improve performance and testing cycles

Skills: Spring Boot, PostgreSQL, REST APIs, Agile Workflow

PROJECTS

Banking Application (Full Stack)

- Built an end-to-end banking system using Spring Boot, React, and PostgreSQL
- Implemented secure user onboarding, transaction tracking, and fund transfer modules
- Designed system architecture enabling smooth data consistency and security across sessions

EDUCATION

Panipat Institute of Engineering and Technology, Panipat, Haryana

Bachelor of Technology - Computer Science Engineering | Oct 2022 – July 2026

GRM School, Bareilly, UP

Senior Secondary Education (XII, CBSE) – 92.8% (2022)

Secondary Education (X, CBSE) – 91% (2020)

SKILLS

- ◆ **Technical:** Java, Spring Boot, SQL, React, Streamlit, GitHub, REST APIs
- ◆ **Product & Analytical:** Requirement Analysis, Client Demos, Feature Documentation, Dashboarding, Data Interpretation, Communication, Collaboration
- ◆ **Tools:** PostgreSQL, Streamlit, Figma (Basic), Excel, Notion

ACHIEVEMENTS

- ◆ Qualified among Top 15 in CODEX-24 and Smart India Hackathon
- ◆ Bronze Medalist – Science Olympiad
- ◆ Trained classical dancer - Featured on local television
